Kimble will contact Diane to see if she can help with anything and Jeff will let me know if he needs any other support. They will also coordinate with Allison on the Desk Statement. So no worries

OK, but we still need to straighten out who is doing what next week concerning Kimble's sampling, right?

This is all taken care of. State Disposal is Mike Berkoff's site.

Guys:

I'm not sure what this means (scroll all the way down), but as far as Wolverine is concerned, like we talked about yesterday, Diane is willing to help Jeff but, like a lot of people, she will be off next week. I am off next Tues, working at home next Wed morning and off in the afternoon, and in the office on Thurs and Fri so I can be her backup. I won't be able to travel to Michigan since I am having all new windows and doors installed at my house so I need to stick close to home. ( I thought it would be a slow time at work.)

If Jeff is only taking around 20 samples, I'm not sure how much help he needs, but we are glad to assist if we can. I assume there could be media inquiries as well as citizen inquiries, so we will need to know which press officer in OPA will be available next week.

I'm still waiting to get the approved "statement" so we are all saying the same thing no matter who calls.

Working at home today until 3:45. My desk phone is forwarded to my EPA cell phone. Maybe we should have some kind of conference call today to figure this out?

Here's the "hands off" email for wolverine-related issues I received. By the way, is anyone going with Jeff Kimble for that sampling next week? Just in case someone asks.

**Subject:** State Disposal Landfill/Wolverine - Latest News regarding New EPA Assignees

Hello Charles and Lolita, ORC and SF Program management have conferred on the issues regarding the State Disposal Landfill Site, within the greater context of the Wolverine PFAS matter, and have decided that it would be more efficient for all potential Wolverine-related sites (including, but not limited to State Disposal LF) and issues be handled by the ORC-team of Tom Williams, Gillian Asque and Jacqueline Clark. Specifically, ORC attorney, Gillian Asque has been reassigned to State Disposal LF and I will no longer handle this Site/case. We understand that State Disposal Landfill has been reassigned to Michael Berkoff in the Superfund Program, but Lolita can confirm the latter with her management.

Therefore, kindly contact Gillian with all State Disposal issues and coordinate with her for any outreach on PFAS issues regarding the Site as it potentially relates to the greater Wolverine matter.

Thank you very much. Cynthia
